INTERNSHIP

Gamix Labs

Sep 2024– Oct 2024

UI/UX Designer (Noida, India)

- Completed an internship working on live projects involving game slicing and mobile view designs using Adobe Photoshop.
- Designed mobile screens and layouts while maintaining clean visual hierarchy and usability.
- Collaborated on UI improvements and gained hands-on experience in real-world design workflows.

PROJECTS

Women Safety App - [Case Study](#)

- Designed a user-centric women safety mobile application focused on providing quick emergency assistance.
- Developed key features like SOS alerts, real-time location sharing, emergency contacts, and nearby safe places.
- Focused on accessibility, clarity, and minimal interaction steps for high-stress scenarios.

AI Resume Builder - [Case Study](#)

- Designed an interactive AI-powered resume builder with smooth animations and a clean, user-friendly UI created entirely in Figma.
- Built structured flows for Personal Details, Education, Work Experience, Skills, Templates, Preview & Download to ensure a seamless resume creation process.
- Created a responsive, intuitive design system with reusable components and smart interactions to deliver a modern and efficient user experience.

Life Reset App - [Case Study](#)

- Designed a productivity app to solve the problem of users abandoning goals midway.
- Created features like goal tracking, reminders, and progress monitoring to improve consistency.
- Focused on intuitive design and motivating UI to encourage long-term engagement.

CERTIFICATE

UI/UX Design - [View Certificate](#)

Completed UI/UX Design certification covering user research, wireframing, prototyping, and interface design.
